TECHNICAL SKILLS

- Languages
 - Java
 - Python
 - JavaScript
 - C#
 - PHP
 - SQL
- Frontend
 - React.js
 - HTML5
 - CSS3
 - Bootstrap
 - Responsive Design
- Backend
 - Node.js
 - Express.js
 - PHP
 - ASP.NET Core
 - REST APIs
- Databases
 - MySQL
 - SQL Server
 - MongoDB
- Tools
 - Git
 - GitHub
 - VS Code
 - Visual Studio
 - SSMS
 - Firebase

LANGUAGES

STRENGTHS

- Problem Solving
- Teamwork
- Communication
- Critical Thinking
- Time Management
- Adaptability
- Attention to Detail

YOHANNES ALEMAYEHU

SOFTWARE ENGINEERING STUDENT | FULL-STACK DEVELOPER

SUMMARY

Motivated Software Engineering undergraduate at Arba Minch University with hands-on experience developing full-stack web applications, responsive user interfaces, REST APIs, database-driven systems, and API-integrated applications. Skilled in JavaScript, React, Node.js, PHP, Python, Java, SQL, and MySQL, with practical experience using Git and modern web development technologies. Experienced in building projects including e-commerce platforms, school management systems, task management applications, portfolio websites, and weather applications. Passionate about software development, problem-solving, learning new technologies, and creating reliable, user-friendly applications.

EDUCATION

Arba Minch University 2023 – Present
Bachelor of Science in Software Engineering Expected 2026
Faculty of Computing and Software Engineering

PROJECTS & EXPERIENCE

- Amazon Clone — Full-Stack E-Commerce Application 2026
 - Built an Amazon-inspired e-commerce platform using React, Node.js, and Express.js with product browsing and cart functionality.
 - Integrated Firebase authentication and Stripe for online payment processing.
 - Developed and consumed REST APIs for frontend-backend communication; configured environment variables for deployment.
- School Management System — ASP.NET Core MVC Application 2026
 - Developed a database-driven system using C# and ASP.NET Core MVC with Entity Framework Core and SQL Server.
 - Implemented management features for students, teachers, courses, enrollments, attendance, grades, and notifications.
 - Applied MVC architecture, DTOs, ViewModels, dependency injection, Razor Views, and role-based authentication.
- Portfolio Website — HTML, CSS & JavaScript 2026
 - Designed a responsive personal portfolio showcasing projects, skills, certifications, and contact information.
 - Built an interactive, mobile-friendly interface with clear information architecture.
- To-Do List Application — React Application 2026
 - Developed a task management app with creation, updating, completion, and deletion features.
 - Practiced React components, state management, event handling, and CRUD operations; managed via Git/GitHub.
- Weather Forecasting Application — Python & API Integration 2026
 - Built an app retrieving and displaying real-time weather data through external API integration.
 - Handled JSON data processing and designed a clean, user-friendly interface for dynamic data visualization.
- Hospital Management System — Full-Stack Application
 - Built a full-stack system using PHP, React, and Python for managing patient records and appointments.
 - Developed both frontend and backend components, practicing database management and application architecture.
